BY EMERSON BENNETT. "We Doctors meet with strange adven tures," once said to me a distinguished phy-

sician, with whom I was on terms of inti "I have often thought," I replied, "that the secret history of some of your protession if written in detail would make a work of

thrilling interest." "I don't know that I exactly agree with you in regard to detail, rejoined my friend: there is a great deal that is common place, and therefore not worthy of being recorded; but grant us the privilege of your novelist, to select our characters and scenes and work them into a kind of plot, with a view of striking denouement, and I doubt no many of us could give you a romance in real life, comprising only what we have seen, which would equal, if not surpass, any thing you ever met in the way of fiction the most strange and romantic adventure of my life!

"You never told me of any of your ad ventures, Doctor, I replied; but if you have a story to tell you will find me an eager lie

Very well, then, as I have a few minutes to spare, I will tell you one more wildly ro

"I am all attention." "Twenty five years ago, pursued the Doctor, I entered the Medical College of Fas a student. I was then quite young, in experienced, and inclined to be timid and sentimental; and well do I remember the horror I experienced when one of the senior students, under pretence of showing me the beauties of the institution, suddenly thrust me into the dissecting room a long dead bodies, and suddenly closed the door upon me; nor do I forget how my screeches of terror and prayers of release from that aw- cied the moanings of the storm, the wailful place made me the laughing stock of

my older companions.

Ridicule is a hard thing to bear; the coward becomes brave to escape it, and the brave man fears it more than he would a belching cannon. I suffered it till I could stand it no longer; and wrought up to a pitch of desperation, I demanded to know and gain an honorable footing among my fellow students.

"I will tell you," said one, his eyes sparkling with mischief; "if you will go at the midnight hour and dig up a subject, and take it to your room and remain alone with it till morning, we will let you off and never say another word about your womanly

I shuddered. It was a fearful alternative but it seemed less terrible to suffer all the single night, than to hear day after day the jeers of my companions.
"Where shall I go? and when?" was my

timid inquiry; and the very thought of such an adventure made my blood run cold.

"To the Eastern Cemetery, to-night, at twelve o'clock," replied my tormenter, fixing his keen black eys upon me, and allowing his thin lips to curl with contempt. "But what is the use of asking such a coward as you to perform such a manly feat?" he added deridingly.

His words stung me to the quick; and without further reflection, and scarcely aware of what I was saying, I rejoined bold "I am no coward, sir, as will prove to

you, by performing what you call a manly "You will go!" he asked quickly.

"I will."

"Bravely said, my lad!" he rejoined in a tone of approval, and exchanging his ex-pression of contempt for one of surprise and admiration. "Do this, Morris, and the first man that insults you afterwards makes an

enemy of me!" "Again I felt a cold shudder pass through my frame at the thought of what was before me; but I had accepted the challenge in the presence of witnesses-for this conversation occurred as we were leaving the hall, after listening to an evening lectureand I was resolved to make my word good should it even cost me my life; in fact I knew I could not do otherwise now, with-

out the risk of being driven in disgrace from the college. I should here observe that in those days there were lew professional resurrectionists; and as it was absolutely necessary to have subjects for dissection, the impleasant business of procuring them devolved upon the students, who in consequence watched every funeral eagerly, and calculated the chances of cheating the sexton of his charge and the

grave of its victim.

There had been a funeral that day of a poor orphan girl, who had been followed to the grave by a few friends; and this was considered a favorable chance for the party whose turn it was to procure the next subject, as the graves of the poor and friend-less were never watched with the same keen vigilance as those of the rich and influential. Still it was no trifling risk to attempt to exhume the bodies of the poorest and humblest-for not unfrequently persons were found on the watch even over these; and only the year before one student had been mortally wounded by a rifle ball; and another a month or two subsequently had been rendered a cripple for life by the same means.

All this was explained to me by a party of six or eight who accompanied me to my room-which was in a building belonging to the college, and rented by apartments to such of the students as preferred a backelor's to regular boarding; and they took care to add several terrifying stories of ghosts and hobgoblins by way of calming my excited nerves; just as I have before now observed old women stand around a weak, feverish patient and croak out their experience in seeing awful sufferings and fatal terminations of just such maladies as the one with which their helpless victim was then afflicted.

"Is it expected that I shall go alone?" I inquired, in a tone that trembled in spite of me, while my knees almost knocked together and I felt as if my very lips were white.

"Well, no," replied Benson, my most dreaded tormentor; "it would be hardly fair to send you alone, for one individual could not succeed in getting the body from and spend the night alone with it!"

agreeable, I assure you; and chancing to look into the mirror, as the time drew near for setting out, I fairly started at beholding the ghastly object I saw reflected therein

"Come, boys," said Benson, who was al ways by general consent the leader of whatever frolic, expedition or undertaking he was to have a hand in: "Come, boys, it is time to be on the move. A glorious night for us!" he added, throwing up the window and letting in a fierce gust of wind and rain; the very d--l himself would hardly venture out in such a storm !"

He lit a dark lantern, threw on his long, heavy cloak, took up a spade and led the way down stairs; and the rest of us, three in number, threw on our cloaks also, took each a spade and followed him.

"Go By the by, I believe I never told you of than half an hour we reached the cemetery. scaled the wall without difficulty, and stealthily searched for the grave till we found it in the pitchy darkness-the wind and rain sweeping past us with dismal howls and moans, that to me, trembling with terror, seemed to be unearthly wail ing of the spirits of the damned.

"Here we are," whispered Bonson to me mantic, more incredibly remarkable, if I as we at length stopped at a mound of fresh earth over which one of the party had stumbled. "Come for the party had and strike in your spade, and let us see if a dead body as you will some day at kil! ing a live one with physic."

I did as directed, trembling in ever limb, but the first spade full I threw up I started back with a yell of horror, that, on would have betrayed us. It appeared to me as if I had thrust my spade into a buried lake of fire-for the soft dirt was all aglow like living coals, and as I had fanings of the tormented spirits, I now fancied I had uncovered a small portion of the bottomless pit itself.
"Fool!" hissed Benson, grasping my

arm with the grip of a vice, as I stood leaning on my spade for support, my very teeth chattering with terror, "another yell like there was life there. The breast heaved; that and I'll make a subject of you! Are she breathed; but the eyes were closed and what I might do to redeem my character you not ashamed of yourself, to be scared the features had the look of death. Still it out of your wits, if you ever had any, by a was a living body-or else I myself was inlittle phosphorescent earth? Don't you sane. know it is often found in graveyards?"

His explanation re-assured me, though I was now too weak from my fright to be of any assistance to the party, who all fell to with a will, secretly laughing at me, and soon reached the coffin. Splitting the lid joining rooms came hurrying into mine, with a hatchet, which had been brought thinking I had gone mad with terror, as corpse, and then Benson and another of the and all knew to what a fearful ordeal I had horrors that might be concentrated into a party taking hold of it, one at the head been subjected. and the other at the feet, they hurried it away, bidding me follow, and leaving the of sympathy; I predicted this." others to fill up the grave, that it might not be suspected the body had been exhu- much for his nervous system!"

Having got the corpse safely over the wall of the cemetery, Benson now called upon me to perform my part of the horrible business.

"Here, you quaking simpleton," he said. I want you to take this on your back and make the best of your way to your room, and remain alone with it all night. If you do this bravely, we will claim you as one

"I set forward, with trembling nerves, expecting to sink to the ground at every tep; but gradually my terror, instead of weakening, gave me strength; and I was soon on the run-splashing through mud and water, with the storm howling about me in fury, and the cold corpse, as I fancied, dinging to me like a hideous vampire.

"How I reached my room I do not know -but probably by a sort of instinct, for 1 only remember of my brain being in a wild feverish whirl, with ghostly phantoms all about me, as one sometimes sees them in a dyspeptic dream.

"But reach my room I did with my lead burden on my back; and I was afterwards told that I made-wonderful time; for Benson and his fellow students, fearing the eight dollars; that a four dollar hat was oss of their subject-which on account of good enough for him-a plenty. Salt Rheum,
Stubborn Ulcers, Syphilitic Disorders, and all diseases arising from an injudicious use of
Mercury, Imprudence in
Life, or Impurity of
Blood.

This great alterative Medicine and Purifier of
the Blood is now used by thousands of grateful
patients from all parts of the United States, who
testify daily to the remarkable cures performed by
the greatest of all medicines, "CARTER'S SPANISH MIXTURE." Neuralgia, Rheumatism,
Scrofula, Eruptions on the Skin, Liver Disease,
Fevers, Ulcers, Old Sores, Affection of the Kid
neys, Diseases of the Throat, Female Complaints,
Pains and Aching of the Bones and Joinus, are
speedily put to flight by using this inestimable
remedy.

For all diseases of the Blood, nothing has ye
been found to compare with it. It cleanses the
system of all impurities, acts gently and efficiently
on the Liver and Kidneys, strengthens the Digestion, gives tone to the stomach, makes the Skin
clear and healthy, and restores the Constitution,
enfectled by disease or broken down by the excesses of youth, to its pristine vigor and strength.
For the diseases of Females it is peculiarly applicable, and whenever it has become known is
regularly prescribed with the happiest effects. It
invigorates the weak and debilitated, and imparts
clasticity to the worn out frame, clears the skin, and
leaves the patient fresh and healthy; a single bottle
of this inestimable remedy is worth all the so-called
Sarsaparillas in existence. of this inestimable remedy is worth all the so-called Sarsoparillas in existence.
